ABOUT ME

Welcome to my portfolio, this portfolio will walk you through my capabilities and skills.

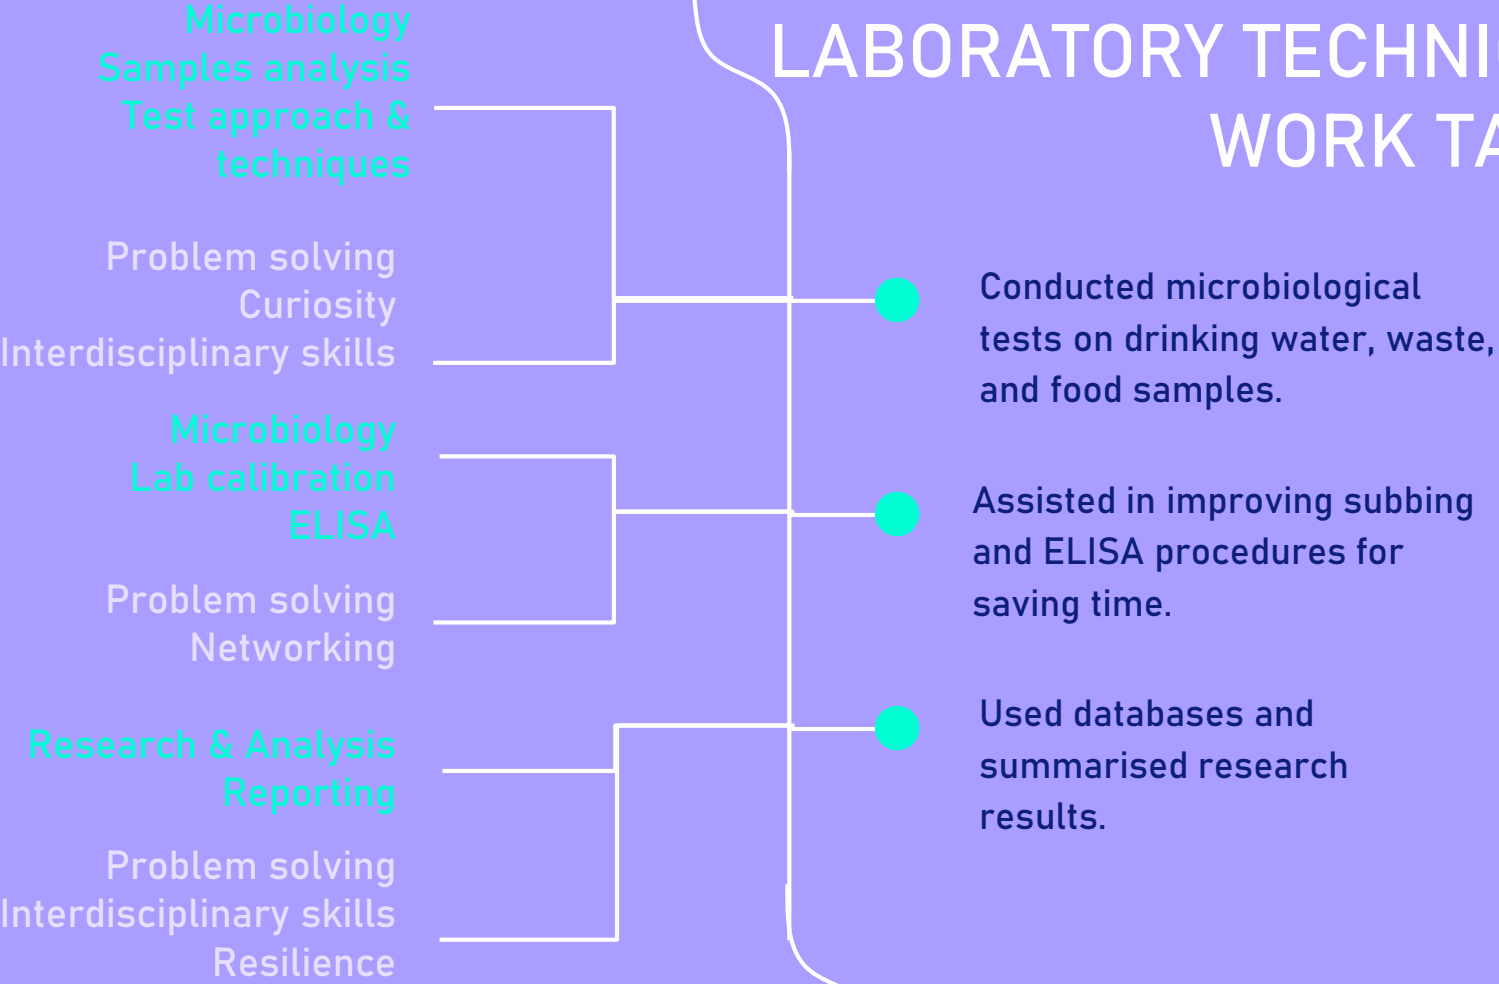

Starting as a science major, I had a twelve-year long career in biology. During this time, I found myself detail-oriented and throughout, and eventually found my passion in numbers and detail. This was in accounting. I have an excellent track record of delivering quality support, with an average rating of 4.6/5 over the past 2 years. Investment is also one of my hobbies. I balance my work life hiking, spending time in nature and connecting with animals.
